

LIGHTperMETER in a nutshell

FEATURES & BENEFITS

Designed for cove & contour lighting

LIGHTperMETER is designed for cove and wall slot applications.

Radius / Curvilinear / Domes

LIGHTperMETER can be successfully used in curved and circular applications.

Customization

LIGHTperMETER is totally customizable and a perfect response to the specific needs of commercial, institutional and private spaces.

Your local LIGHTperMETER supplier can review your project needs and coordinate the customization process with our engineering and customer support dept.

5 years warranty

The portfolio of LIGHTperMETER comes with a five year system warranty from our global A-brand suppliers. This system guarantee ensures that in event of a failure or malfunction only one supplier is needed to resolve the problem.

The choice

LIGHTperMETER luminaires offer a wide variety of LED light units which enable long run lengths to be simple, easy to install and highly cost effective. LIGHTperMETER, a sustainable, soundly engineered and high-performance solution for your project.
