

LIGHTperMETER Focused solutions

For more than 15 years, LIGHTperMETER has been developing and perfecting high-end lighting products to meet the varied needs and aesthetic aspirations of internationally renowned architects, interior designers, and lighting designers.

LIGHTperMETER offers focused or tailored solutions that are optimal in terms of light integration and makes research and innovation a priority. Most of our products offer a variety of options, sizes and accessories helping to widen the lighting application scope.

LIGHTperMETER has created a highly adaptable line of professional lighting tools for linear cove and contour lighting and for surface mounted linear LED lighting. LIGHTperMETER offers its expertise to the most creative architects and designers.
