Focused solutions

LOGOLIGHT

A special shop-version with dual function : asymmetrical under cabinet lighting and illuminated signage. Ideal image builder : luminous lettering and logo's throw the right light on a company / retail outlet.

LogoLight delivers outstanding visual impact : the customers attention is directed twice to the products on display. It offers the possibility to flexibly combine light and graphics, both in professional and private life/work environments. Resistant to 24/7 applications thanks to an optimal heat distribution and ventilation slots. Combines energy saving LED-technology with state-of-the-art electronic control gear.

ILLUMINATED SIGNAGE
